Fields used in CAREWare to construct the In + Care Performance Measures-2011

Measure	Numerator	Denominator	Comments
#1 Visit gap Measure	**Visits by service category in date span**=0 **Subfilter:** *Srv Category*=Outpatient/Ambulatory Medical care *Date span*: 0 to 180 days before end date *Domain wide*=No	1**. HIV status**=HIV positive (not AIDS) or HIV Pos (AIDS status unknown) or CDC-defined AIDS 2. **Visits by service category in date span>=1** Subfilter: *Srv Category*=Outpatient/Ambulatory medical care *Date span*: First 6 months of measurement yr. *Domain wide*=No 3. **Enrollment status by date**=Active, Inactive/case closed OR Unknown 4**. Vital status by end date:** Not Equal to deceased	Numerator returns clients who did NOT have a visit
#2 Medical visit frequency	Under construction	1. **HIV status**=HIV positive (not AIDS) or HIV Pos (AIDS status unknown) or CDC-defined AIDS 2. **Visits by service category in date span=>1** Subfilter: *Srv Category*=Outpatient/Ambulatory medical care *Date span*: First 6 months of 24 month measurement period (months 24 to 19) *Domain wide*=No 3. **Enrollment status by date**=Active, Inactive/case closed OR Unknown 4**. Vital status by end date:** Not Equal to deceased	Numerator returns clients who DID have at least one visit in each period

Measure	Numerator	Denominator	Comments
#3 Patients newly enrolled in medical care	**Visits by service category in span**>=1 for each period **Subfilter:** *Srv Category*=Outpatient/Ambulatory Medical care *Date span*: 8 to 5 Months before end date *Date span*: 4 to 0 Months before end date *Domain wide*=No	1. **HIV status**=HIV positive (not AIDS) or HIV Pos (AIDS status unknown) or CDC-defined AIDS 2. **Visits by service category in date span>=1** Subfilter: *Srv Category*=Outpatient/Ambulatory medical care *Date span*: First 4 months of measurement yr.(months 9-12) *Domain wide*=No 3. **Enrollment status by date**=Active, Inactive/case closed OR Unknown 4. **Enrollment date:** within measurement year (0 to 12 months) 5**. Vital status by end date:** Not Equal to deceased	Numerator returns newly enrolled clients who DID have at least one visit in each period
#4 Viral load suppression	1. **Last Quantitative Lab value:** <=199 **Subfilter**: *Quant test*= viral load *Quant lab date*: within measurement year (0 to 12 months) *Domain wide*=No	1**. HIV status**=HIV positive (not AIDS) or HIV Pos (AIDS status unknown) or CDC-defined AIDS 2. **Visits by service category in date span>=1** Subfilter: *Srv Category*=Outpatient/Ambulatory medical care *Date span*: measurement year (0 to 12 months) *Domain wide*=No 3. **Enrollment status by date**=Active, Inactive/case closed OR Unknown 4**. Vital status by end date:** Not Equal to deceased	Numerator returns clients whose latest viral load in year is suppressed (less than 200 copies)
