PDI-Performance Measure Field Map

June 5, 2013

This document details all fields in the Provider Data Import (PDI) Template that correspond to data elements used by HAB Performance Measures in CAREWare. The PDI Template Fields column refers to the CAREWare PDI Template, which is an MS Access database available for free download from the CAREWare Help Desk. The Calculated Object column lists the name of each element used by the performance measures listed in the final column.
