

RW CAREWare API Changes for Build 214

- Removed Public Shared Sub CWApi.User.ChangePassword from CWApi
- Removed Public Shared Sub CWApi.User. ChangePasswordForUser from CWApi
- Updated the signature for Public Shared Sub ChangeMyPassword(sess As CwApiSession, currentPassword As String, newPassword As String) in CWApi.User to include the user's current password.
- Updated the signature for Public Shared Function getCustomSubformRecord(sess As CwApiSession, subformRecordPK As String, ByVal tabPK As String) As Dictionary(Of String, ezjson.JSONValue) in CWApi.CustomFields to include the tabPK argument.
- Updated the signature for Public Shared Sub deleteCustomSubformRecord(sess As CwApiSession, subformRecordPK As String, tabPK As String) to include the tabPK argument.
- New function getPasswordResetTokenForUser(sess, userPK). Initiates a password reset for a user and returns the token they will need to complete the password reset.
- New sub ResetPassword(sess As CwApiSession, userPK As String, userName As String, newPassword As String). Resets the password for the supplied user.
