The RSR Viewer shows aggregate counts of the clients being reported on the RSR and allows users to find clients easily and to adjust any incorrect clinical data. The Viewer shows counts from previously created RSRs; instructions for creating an RSR can be found by clicking <u>here</u>. It also includes calculations for the completeness of the data, including quarterly calculations for services, labs, and linkage to care as well as calculations for racial subgroups.

To view the RSR :

1. Click Reports.

O Customize
